

Record, teach, or walk the product

One playlist. Eight short chapters. Spoken lines you can read on camera.

~22 min if you record all chapters

Better than one long script
Record *eight videos* (or pause between chapters in one take). People skip 30-minute product dumps. Dispatchers watch “Book a load.” Billing watches “Invoice.”

Already in the app (use these too)
Login → FAQ & features. After sign-in: sidebar *How to*, a How to panel on every screen, and *Replay tutorial* in the profile menu.

HOW TO USE THIS PACK

IF YOU ARE...	DO THIS
Recording YouTube / Facebook	One video per chapter below. Title = chapter name. Pin casinfreight.com. End each clip with “Next: [chapter].”
Training a dispatcher in the office	Share your screen. Follow the You click column. Read the You say column. Let them click the second time.
A 90-second ad / Reel	Use only Chapter 0. Do not try to cover the ledger in 90 seconds.
A new owner, alone	Skip filming. Sign in → Replay tutorial, then open How to. This document is the extra voiceover if they want it.

Do not invent features on camera. No Google login. No live Easytrip. No shipper portal. No axle-by-axle weighbridge. Helpers do not use the driver app.

CHAPTER 0 — 90-SECOND PROMO (OPTIONAL)

Hook → problem → product → CTA. Record this separately from the training series.

TIME	SHOW ON SCREEN	SAY (VO)
0:00 – 0:07	WhatsApp thread: “Nasaan yung truck?” “Sino may waybill?” Overlay: “Still running the fleet on chat?”	<i>“Your trucks are moving. ... Your paperwork is not.”</i>
0:07 – 0:18	Dispatcher with three screens / paper DR. Text: “Dispatch, GPS, BIR — three different piles.”	<i>“One group chat for dispatch. ... Another for GPS. ... Then billing hunts the DR for VAT.”</i>
0:18 – 0:38	casinfreight.com Trip Board. Cards sliding Pending → Loaded → In Transit → Delivered.	<i>“CasinFreight is the office for your own fleet. ... Not a public load board. ... Every load lives on one board.”</i>
0:38 – 0:55	Fast cuts: Load Calculator payload gauge · driver phone seal photo · invoice with 12% VAT · helper on the truck.	<i>“Book with GVWR. ... Driver stamps GPS and seal on the phone. ... Invoice with VAT and EWT. ... Driver and pahinante on the same truck.”</i>
0:55 – 1:10	Pricing: 1 month free · ₱899 Founding through 31 Dec 2026. URL: casinfreight.com. Button: Start free.	<i>“One month free. ... Then Founding at eight ninety-nine if you lock in this year. ... casinfreight.com.”</i>

TRAINING SERIES — CLICK AND SAY

Use a demo company with one shipper, one rate card, one truck, one driver, one helper. Hide real TINs if you stream publicly.

Chapter 1 — Create the company

~2:00

Web · logged out then in

YOU CLICK	YOU SAY
casinfreight.com → FAQ & features, then Back to sign in	<i>"This is fleet software for your trucks and your shippers. ... Not a marketplace."</i>
Create company → name, work email, password (10+ characters) → Start free	<i>"Owners only on this button. ... Invited staff use the join link. ... Free is one month, five trucks, one login, ten trips."</i>
Org Setup (top bar) → save legal name, TIN, address, phone	<i>"This TIN prints on invoices and waybills. ... Save it before you bill anyone."</i>

Chapter 2 — Master data (do this before the first trip)

~4:30

Shippers · rates · crew · trucks · bans

YOU CLICK	YOU SAY
Shippers & Clients → Add Client → legal name, TIN, terms	<i>"The shipper on the trip is the name on the invoice. ... Put the BIR TIN here once."</i>
Rate Card Matrix → Add Rate Card → origin, destination, truck type, base rate, toll estimate	<i>"New Load will fill this rate for you. ... Tolls here are estimates — not a live Easytrip pull."</i>
Drivers & Helpers → Add driver: LTO number, restrictions, expiry, same email they will use on the phone	<i>"Licensed driver only for the app. ... The email must match the invite you send later."</i>
Add helper / pahinante (license optional) → assign to the same truck	<i>"Helper rides the truck. ... They do not log in to the driver app."</i>
Trucks & Fuel → Add New Truck → plate, type, GVWR, tare, CBM → assign driver and helper	<i>"Net payload is GVWR minus tare. ... That is the overweight check later — RA 8794 cargo versus net, not per axle."</i>
Log Fuel Fill-Up (optional in this chapter)	<i>"Liters, pesos, odometer. ... The truck's km/L lives here."</i>
Truck Bans & Hours → seed Metro Manila or add your corridor	<i>"If pickup hits a live window, New Load warns you. ... You still decide whether to book."</i>

Chapter 3 — Book a load

~3:00

New Load / Load Calculator

YOU CLICK	YOU SAY
New Load	<i>"This is the calculator and the booking in one screen."</i>
Pick the truck — watch driver and helper fill in	<i>"Crew comes from the truck. ... Change it here only if today's pairing is different."</i>
Shipper, origin, destination, cargo kg and CBM	<i>"Watch the payload gauge. ... Overweight is cargo over net payload."</i>

YOU CLICK	YOU SAY
Confirm rate, fuel surcharge, toll estimate, extra stops → save	<i>"Rate came from the card we saved. ... The trip lands on the board as Pending."</i>

Chapter 4 — Run the trip (office + driver phone)

~4:00

Trip Board · trip file · driver app

YOU CLICK	YOU SAY
Trip Board — Kanban vs List. Open the new card	<i>"Happy path is Pending, Loaded, In Transit, Delivered, Invoiced. ... Tap the card for the full file."</i>
Company → invite that driver as role Driver (if not yet). They install CasinFreight Driver, email + password	<i>"No Google login. ... Roster email and invite email must match. ... They only see assigned open trips."</i>
On the phone: Location on → pickup GPS → seal photo (required) → dispatch signature	<i>"Seal photo is the gate to Loaded. ... Mock GPS is blocked and the office sees a flag."</i>
Office trip file: live pings, open in Maps. Advance In Transit → Delivered after POD + receiver name	<i>"Office watches pings while the trip is open. ... There is no separate nationwide map product."</i>
Delivery Note / waybill. Add accessorials if they happened (demurrage, overweight, helper, overnight)	<i>"Print the DR from here. ... Accessorials hit the invoice later."</i>
Owner / GM: status rollback only if someone marked a stage too early	<i>"Dispatchers cannot silently unwind a sealed load. ... That is dual control."</i>

Chapter 5 — Holds and cancellations

~1:30

Exceptions

YOU CLICK	YOU SAY
From the trip or the board, hold or cancel with a PH ops reason (gate pass, congestion, checkpoint)	<i>"The card leaves the happy-path board. ... Dispatch stays clean."</i>
Exceptions page — resume a hold, or leave a cancel	<i>"Resume puts it back where it was. ... Cancelled loads do not get invoiced from this pipeline."</i>

Chapter 6 — Invoice, VAT, EWT, paid

~3:00

Invoices & Billing

YOU CLICK	YOU SAY
Invoices — unbilled delivered trips at the top → create invoice	<i>"Twelve percent VAT. ... EWT defaults to two percent. ... TIN came from company and shipper."</i>
Send. When the client pays: proof of payment + BIR 2307 → Paid	<i>"Paid locks collections. ... Keep the 2307 with the invoice."</i>
Void / retract — Owner dual control	<i>"Billing cannot vanish an invoice alone. ... That is the audit trail."</i>

Chapter 7 — Books and the owner view

~2:00

Ledger · Dashboard

YOU CLICK	YOU SAY
General Ledger — journal, trial balance, P&L, AR. Post a JV for	<i>"Fuel and invoices already post. ... Use a journal voucher for everything else."</i>

YOU CLICK	YOU SAY
PMS or wages if needed	
Account menu → Owner Dashboard → month / quarter / year	<i>"Utilization, aging, overweight and demurrage flags. ... Zero until you have trips."</i>

Chapter 8 — Team, backup, subscribe

~2:00

Roles · backup · PayMongo

YOU CLICK	YOU SAY
Roles & permissions → invite dispatcher / billing / driver → edit the matrix	<i>"Free is one Owner seat. ... Subscribe before you hire the next login."</i>
Bell icon — license expiry, GPS, collections	<i>"Alerts jump you to the trip, invoice, or driver."</i>
Account menu → Backup & restore (Owner)	<i>"Restore merges by ID. ... It does not wipe records that are not in the file."</i>
Plan badge → trucks, monthly or annual (15% off) → GCash / Maya / card / QR Ph	<i>"Founding is eight ninety-nine with five trucks through December thirty-one, twenty twenty-six. ... Extra truck is one fifty. ... Extra photo storage is ninety-nine per gig."</i>

CHAPTER TITLES (COPY-PASTE FOR YOUTUBE)

1. CasinFreight in 90 seconds (promo)
2. Create your trucking company in CasinFreight
3. Shippers, rate cards, drivers, helpers, and trucks
4. Book a load with the Load Calculator
5. Trip Board, e-POD, and the driver app
6. Holds and cancellations
7. VAT invoices and BIR 2307
8. Ledger and owner dashboard
9. Invite your team and subscribe

WHAT YOU WILL NOT DEMO (SAY IT ONCE, THEN MOVE ON)

- Google / SSO login
- Live Easytrip or Autosweep balance
- Per-axle DPWH weighbridge math
- A shipper self-serve portal
- Forcing the phone Location toggle (needs MDM)
- Helper logging into the driver app

CasinFreight · CasinWorks · casinifreight.com · Prices as of August 2026. After you record Chapter 1, tell viewers: sign in → How to, or Replay tutorial, if they want the same walkthrough inside the app.
